# 1. EUPHA update

## **EUPHA@Vienna 2016**

### **Pre conferences (co) organised by our EUPHA sections**

For more information and registration, please go to: <https://ephconference.eu/2016-pre-conference-programme-235>

### **Migrant health - Economics, human rights, and quality of care**

Organised by EUPHA Section on Migrant and Ethnic Minority Health and the Center for Health and Migration, Vienna.

Please click [here](#) for more information.

### **Mental Health and Architecture**

Organised by EUPHA Section on Public mental health and Politecnico di Milano, Italy

Please click [here](#) for more information.

### **Enhancing evidence-informed decision-making to support resilient and sustainable health systems in Europe**

Organised by European Commission, Consumers, Health, Agriculture and Food Executive Agency (CHAFAEA), with the support of WHO Regional Office for Europe (WHO Euro), Health Services Research (HSR) Europe, EUPHA Section on HSR, EUPHA Section on Public health practice and policy and European Observatory on Health Systems and Policies

Please click [here](#) for more information.

### **Use of injury data for safety promotion**

Organised by EUPHA Section on Injury prevention and safety promotion, EuroSafe European Association for Injury Prevention and Safety Promotion and BRIDGE-HEALTH BRIdging Information and Data Generation for Evidence-based Health Policy and Research

Please click [here](#) for more information.

### **Pricing of food: can we use this to promote healthy nutrition?**

Organised by EUPHA section on Food and nutrition

Please click [here](#) for more information.

### **Strengthening health information systems through cross-country learning and collaboration -**

Organised by EUPHA section on Public Health Monitoring and Reporting, BRIDGE Health project, WHO Regional Office for Europe and OECD

Please click [here](#) for more information.

### **Health workforce governance in Europe: toward a future research agenda**

Organised by EUPHA Section on Health Services Research, Working Group Health Workforce Research, European Observatory on Health Systems and Policies in collaboration with OECD and WHO Regional Office for Europe

Please click [here](#) for more information.

### **Addressing health inequities across Europe: from evidence to policy**

Organised by Maastricht University, Faculty of Health, Medicine, and Life sciences, EUPHA Section on Public health practice and policy, Euro-Healthy project

Please click [here](#) for more information.

### **Health in all urban policies: challenges for new trainings**

Organised by University Paris Ouest, International Council for Science and EUPHA Section on Urban public health

Please click [here](#) for more information.

### **Extending working life beyond the age of 50: challenges in cross national research**

Organised by EUPHA Section on Social Security, Work and Health

Please click [here](#) for more information.

### **Core competences for strengthened public health system preparedness**

Organised by European Centre for Disease Prevention and Control (ECDC), EUPHA Section on Infectious diseases control and the National Institute for Public Health and the Environment (RIVM), The Netherlands

Please click [here](#) for more information.

### **Operationalizing health promotion on the life course through the health literacy approach: where do we stand 30 years after Ottawa?**

Organised by EUPHA Section on Health promotion

Please click [here](#) for more information.

### **Evidence based public health - decision support for health (care) policy**

Organised by Ludwig Boltzmann Institut for Health Technology Assessment, in collaboration with EUPHA Section on Health Technology Assessment

Please click [here](#) for more information.

### **Martin McKee award from the NSPH Greece**

Martin McKee [UK] and Vesna Bjegovic Mikanovic [Serbia] were the most recent awardees of the National School of Public Health, Greece. Their significant contributions to public health were cited during ASPHER's half century celebration of achievements on the European stage [1966-2016]; Martin was cited for his contributions to Europe and globally, Vesna was cited for her considerable contributions to ASPHER and the Balkan world [SEE]. Jeffrey Levett described them as two strong pillars that help keep public health on high ground. Martin was cited for his raised, consistent and sustained voice of conscious in public health and his wide variety of socially relevant work; Vesna was cited as a major driving force behind the development of the ASPHER 2020 strategy and for her promotion of ASPHER across group boundaries.

### **3rd International Conference on law enforcement & public health**

EUPHA is very proud to be a supporter of this upcoming conference. The conference is organised from 2 to 5 October in Amsterdam, The Netherlands. The full programme is now available on:

<http://www.leph2016.com/draft-leph2016-program/> Martin McKee, EUPHA president, will have a plenary lecture at this important conference.

## **2. European Public Health Conference**

Early bird registration will end on 1 September 2016, so be quick!

The updated programme is now available at:

[https://ephconference.eu/programme/dynamic\\_programme.php](https://ephconference.eu/programme/dynamic_programme.php)

### **Express your interest**

If you have already registered for the conference, you will have the chance to 'express your interest' for the various conference activities. This should help both participants, in allowing a personal programme to be built, and also the organisers to be able to organise resources and plan room allocations more efficiently.

To use this function, simply choose the option 'Add me to this activity' when viewing the various conference activities.

## **3. EUPHA members update**

We are very pleased to announce that a pre conference on advocacy is being organised by several of our members at the Vienna 2016 conference.

### **Making health instead of care as the business of healthcare - Enhancing the advocacy role of national public health associations in Europe**

Organised by NPHF - Netherlands Public Health Association, SESPAS - Spanish Association of Public Health and Health Administration and EUPHA

Please click here for more information.

## 4. European Journal of Public Health

The [European Journal of Public Health](#) is a multidisciplinary journal in the field of public health.

The EJPH is published bimonthly. The journal provides a forum for discussion and debate of current international public health issues with a focus on the European region. In 2016, the impact factor of the journal is at 2.751. The 5-year impact factor is 2.512.

The EJPH is the official journal of EUPHA.

## 5. Call for proposals, job opportunities

### **CFHI scholarship**

CFHI has a scholarship deadline coming up for our Winter Global Health Intensives. Please forward this email to your students and any colleagues that may be interested:

Child Family Health International, a UN-recognized non-profit leader in global health international education, has an approaching scholarship deadline for our 2-week Winter Intensives Global Health

Education Programs. These programs include topics such as maternal/child health, HIV, health systems access, and community health.

Scholarships are available to any student at undergraduate or graduate levels. We have two awards worth \$1,000 each with the approaching deadline of Monday, September 19th. Scholarship information available at: <https://www.cfhi.org/2-week-winter-intensives>

To hear more information about this scholarship and our winter intensives, we have two webinars coming up within the next few weeks! Here is the info:

Episode 1: CFHI 2-week intensives, Africa and Asia

Friday, August 26th, 3 pm Pacific Time | Register

Episode 2: CFHI 2-week intensives, Latin America

Friday, September 9th, 12 pm Pacific Time | Register

### **Call for tender N° Chafea/2015/Health/51**

Call for tender N° Chafea/2015/Health/51 concerning 2 studies:

- a study on the added value of the strategic and life-course approach to vaccination and
- a study on shortcomings related to low vaccination coverage in health care workers

*Deadline for submission of proposals: 13 September 2016*

<http://ec.europa.eu/chafea/health/tender...>

### **Max Planck Institute for Demographic Research (MPIDR): two vacancies**

Two Tenure-track Associate Professor (W2) Positions in Population Health and Labor Demography  
The Max Planck Institute for Demographic Research (MPIDR) is seeking applications for two tenure-track positions at the level of Associate Professor. We are particularly interested in candidates whose work focuses on population-level patterns, differentials and trends in health or labor, using innovative quantitative methods. Successful candidates will serve as deputy heads of the research group "Population Health" and the research group "Labor Demography". Appointments will be made at the German W2 (Bund) level. Please see [www.demogr.mpg.de](http://www.demogr.mpg.de) for more information on the Population Health and Labor Demography groups.

Candidates are expected to have:

- a PhD in demography, statistics, economics, sociology, epidemiology, or a related quantitative health or social science field;
- a strong publication record; and
- an active research program. Experience in managing research teams and mentoring and training doctoral students as well as a track record in securing external funding will strengthen the application.

Appointments are full-time and initially for 5 years, with the possibility of tenure. Tenure decisions will be dependent on a positive evaluation and approval by the corresponding Max Planck section's committee on positions at the level of Associate Professor (W2).

The MPIDR offers a competitive salary, an excellent research environment and support, and a low teaching load.

Applicants should submit:

- a cover letter
- a curriculum vitae
- a statement of research interests
- a statement of mentorship experience
- contact information for 3 references
- copies of 3 recent publications

Applications should be sent in English as one PDF file to [apply-w2@demogr.mpg.de](mailto:apply-w2@demogr.mpg.de). Inquiries about the positions should be sent to the same contact. The application deadline is October 15, 2016. The starting date is flexible but not later than September 2017.

The Max Planck Society wishes to increase the share of women in areas where they are underrepresented and strongly encourages women to apply. The Max Planck Society is committed to employing more individuals with disabilities and especially encourages them to apply.

## University of Tampere: vacancy Subject: Professorship in Global Health and Development

We are seeking for candidates on a new exiting professorship. We would like to ask your help in promoting this position. Since this vacancy targets a new, multidisciplinary field, we are interested in finding different kinds of potential candidates we could approach directly.

### *Job description*

University of Tampere in Finland is seeking applicants for a new professorship in in **Global Health and Development**. By **global health** we mean a system-based and transdisciplinary approach to education, research, and practice. Study of this field places priority on improving wellbeing, health and equity worldwide. It emphasizes complex transnational issues and the search for sustainable solutions. It involves many disciplines and engages with a wide range of stakeholders. A successful candidate is required to have broad experience in the field of researching Global Health, and especially expertise and promise in *inter- or transdisciplinary* study of the interaction between global phenomena, health and human wellbeing. Candidates from diverse disciplinary background are considered and invited, but previous work and degrees must show both formal competence and strong track record in knowledge of the intersection of Health and Social Sciences. A higher education degree is required in Public Health or Medicine (licentiate, medical doctor) or Social Sciences, and formal studies or demonstrated strong knowledge in the other two fields. An appropriate doctoral degree is essential. The professorship will be filled on a permanent basis, starting as soon as possible (to be negotiated).

### *Background*

University of Tampere will merge by 2018 with Tampere University of Technology and Tampere University of Applied Sciences. The profile of the new University will build on three major areas of focus: **Society, Technology and Health**. Within the focus, **Global Wellbeing** will play a major role. As a hub, including **Global Health and Development**, it is envisioned as enhancing joint activities of disciplines in different faculties, such as Social and Health Sciences, Medicine and Life Sciences, Technical Sciences, Educational Sciences, Economics, and Management. The hub will facilitate innovative education and transdisciplinary research on global issues and on national and local developments influenced by globalisation and regionalisation.

In the role of the professor, participation in inter- and transdisciplinary education is emphasised. In the area of research, a professor will be able to continue and expand her/his research field interests in so far as they contribute to Global Wellbeing. Examples of potential themes include:

- Global and Regional Policies; Socially Fit Health Technology
- Urbanisation and segregation; Forced Migration
- Global Environmental Health
- Impacts of Globalisation on Health and Health systems
- Human Rights and Bioethics; Global Governance

The university is seeking a visionary person, who is able to utilize the potentials outlined, and shares the vision of *Global Wellbeing*.

For further information, please contact: Professor, Global Health and Development, Anneli Milen.  
Contact info: anneli.milen@uta.fi, tel. +358 50 318 7770 or +358 40 552 1337, Skype AnneliMi

## 6. Interesting news

### **Final symposium of the Repopa project**

Project REPOPA - REsearch into POlicy to enhance Physical Activity is a five year project funded by the European Commission, where researchers from seven countries are working together to build future evidence into policy making.

REPOPA is part of the European Commission programme on 'Cooperation', which supports research activities carried out by different research bodies in trans-national cooperation and aims to gain or consolidate leadership in key scientific and technology areas.

On 8 September, Repopa is organising its final symposium to present REPOPA as a show case with its outputs (results, tools and products) in relation to the knowledge-base ('which gap does REPOPA fill in science and practice').

<http://repopa.eu/>

### **Human trials begin for Zika vaccines**

The National Institute of Allergy and Infectious Diseases has injected two human volunteers with an experimental DNA-based Zika vaccine, Director Anthony Fauci announced today, a month ahead of its projected schedule for vaccine development. "If it's a home run, we'll know pretty quickly," Fauci said, adding that if it is successful, phase 2 trials could begin as early as January. Human trials of another DNA-based vaccine created by Inovio Pharmaceuticals started in Miami a few days ago, but Fauci stressed that those DNA inserts are different from the ones the his agency is using.

### **UNICEF: Mother's Milk Best For Newborn Babies**

The United Nations Children's Fund (UNICEF) warns that 77 million babies deprived of mother's milk within the first crucial hours after birth are at great risk of dying within a month. To mark World Breastfeeding Week (August 1 to 7), UNICEF and the World Health Organization (WHO) are calling for newborns to be breastfed exclusively for six months. UNICEF says newborns should be breastfed within the first hour of life. This provides them with the essential nutrients, antibodies and skin-to-skin contact with their mother that protects them from disease and death.

### **Invitation Study on Health Promoting Universities**

The EUPHA section on Health promotion received the following invitation: we want to invite you to participate in a study that we are developing on the implementation of the initiative of **Health Promoting Universities** in different institutions.

This questionnaire is about different aspects of the implementation of the Health Promoting Universities, so who responds ideally should be directly related to the initiative such as the director or coordinator or other partners involved in the initiative.

The results of this study will be used to report on the status and conditions under which initiatives **Health Promoting Universities** in different contexts work.

Your participation is very important to ensure the representativeness of institutions in different continents and countries.

Below you will find the link to the questionnaire, which is available in English and Spanish.

### **Soda Consumption Falls After Special Tax in California City**

[The Wall Street Journal](#) – **Soda Consumption Falls After Special Tax in California City**

Consumption of soda and other sugary drinks fell by more than a fifth in low-income neighborhoods of Berkeley after the California city became the first in the U.S. to introduce a special tax last year, according to a study published Tuesday.

The peer-reviewed research is the first to measure the impact of the penny-per-ounce tax. It found that consumption declined 21% and many residents switched to water after the tax went into effect in March 2015, according to the study published online in the *American Journal of Public Health*.

### **Britain launches soft drinks sugar tax to fight obesity**

[Reuters](#) — Britain on Thursday said it would tax companies which sell sugary soft drinks and invest that money in health programmes for school children, part of a long-awaited strategy to curb childhood obesity that critics say is too weak. Drinks companies were also angered by the plan which urges industry to cut sugar in products aimed at children, saying nearly a third of those aged 2 to 15 are already overweight or obese. In a statement announcing details of the strategy, which has been in the works for several years, junior finance minister Jane Ellison said obesity was costing Britain's National Health Service (NHS) billions of pounds every year

Please note that some [WHO Electronic products](#) are now also available in electronic format and through electronic subscriptions.

### **Toolkit for Integrated Vector Management in Sub-Saharan Africa**

This toolkit for integrated vector management (IVM) is designed to help national and regional programme managers coordinate across sectors to design and run large IVM programmes.

### **Toxicological Evaluations of Certain Veterinary Drug Residues in Food**

The toxicological monographs in this volume summarize data on the veterinary drug residues that were evaluated toxicologically by the Committee.

### **Voluntary Health Insurance in Europe: Country Experience**

This volume contains short, structured profiles of markets for VHI in 34 countries in Europe. These are drawn from European Union member states plus Armenia, Iceland, Georgia, Norway, the Russian Federation, Switzerland and Ukraine. The book is aimed at policy-makers and researchers interested in knowing more about how VHI works in practice in a wide range of contexts.

### **Voluntary Health Insurance in Europe: Role and regulation**

This study draws from the experiences of 34 countries to assess VHI's contribution to health spending and to understand its role in Europe and in relation to publicly financed coverage. It looks at who sells VHI, who purchases it and why. It also reviews public policy towards VHI at national and EU levels and the related national policy debates.

### **Climate Change and Health in the Western Pacific Region**

This report synthesizes information and approaches on climate change and health pertinent to Member States in the Western Pacific Region. It also examines efforts and initiatives by various experts and stakeholders, with an in-depth look at experiences in seven Member States that reflect the diversity of the Region. Finally, it offers recommendations for policy-makers.

### **Bulletin of WHO Vol. 94, No. 7, 2016**

This flagship periodical of WHO, the Bulletin is a leading international voice on public health issues. This peer-reviewed monthly draws on the expertise within WHO to provide a vital resource for those interested in research, policy issues and debate on international public health, particularly the problems confronting developing countries.

Eastern Mediterranean Health Journal, Vol. 22 No. 1, 2015

Eastern Mediterranean Health Journal, Vol. 22 No. 2, 2015

Eastern Mediterranean Health Journal, Vol. 22 No. 3, 2015

The EMHJ was launched in 1995 as a peer-reviewed medical journal. Starting January 2010, the Journal has been given a new format and is now published monthly. The EMHJ serves as a forum for the dissemination of biomedical information through the publication of scientific research papers on a range of topics related to public health, with particular relevance to the Eastern Mediterranean Region.

**Books in French**

Communication brève relative à la sexualité (CBS)

Les recherches et les consultations menées ces dernières décennies ont montré que la communication en matière de sexualité est une question urgente sur laquelle il faut se pencher.
