EUROPE'S ONLY DEDICATED FINE AND SPECIALITY CHEMICALS EVENT 24-25 JUNE 2015

The 2015 event sees the Chemspec Europe show back in Germany for its 30th anniversary event, set to be the largest Chemspec Europe on record.

As the European leader in chemical sales, exports, investment and R&D expenditure, Germany plays a decisive role in meeting global chemical demand. Germany produces a wide range of products, including fine chemicals, specialty chemicals, petrochemicals, inorganic chemicals, synthetic materials, agrochemicals and fertilisers, laundry and cleaning agents, cosmetics, pharmaceuticals, paints and adhesives.

According to Germany's "Verband der Chemischen Industrie e.V." (VCI), over 90 percent of Germany's more than 2,000 chemical companies are small and medium-sized enterprises. Some 434,000 workers are employed in the chemical and pharmaceutical industry. Many of them are graduates in the fields of science, technology, engineering and mathematics. The industry's estimated expenditures for research and development were around €9.6 billion in the year 2012, according to VCI. This positions the German industry at third place in an international comparison.

According to data from "Germany Trade & Invest", Germany holds third place worldwide in the number of patent applications filed for chemical products. Germany is also among the top-ranking countries in its number of patent applications for pharmaceutical products.

A mere three years after the crisis, nearly all chemical companies were showing sales growth and operating margins in the double digits due to a drive to ensure efficient running of plants and production facilities which has allowed the German Chemicals industry to thrive in the face of rising energy costs.

WHY COLOGNE?

Cologne - the chemical hub

- About 230 chemical companies of all sizes and sectors with a total of around 70,000 employees have established themselves in this region.
- The ChemCologne region (Chambers of Commerce and Industry of Cologne, Aachen, Bonn-Rhein-Sieg, Düsseldorf, Mittlerer Niederrhein, Wuppertal-Solingen-Remscheid) is vast and generates the equivalent of 20% of Germany's total chemical turnover.

Cologne - the well connected travel hub

- 90 minutes away or less from almost all capital cities within Europe
- 15 minutes by car and direct train connections between Koelnmesse and Cologne-Bonn Airport
- High Speed ICE and Thalys trains connecting Koelnmesse with the airports of Frankfurt, Brussels and Amsterdam
- 30 minutes by train from Düsseldorf International Airport and an average of 60 minutes directly from Frankfurt Airport to Koelnmesse
- Direct flights to over 160 countries

CHEMSPEC EUROPE 2015 – AT THE HEART OF THE FINE CHEMICAL INDUSTRY

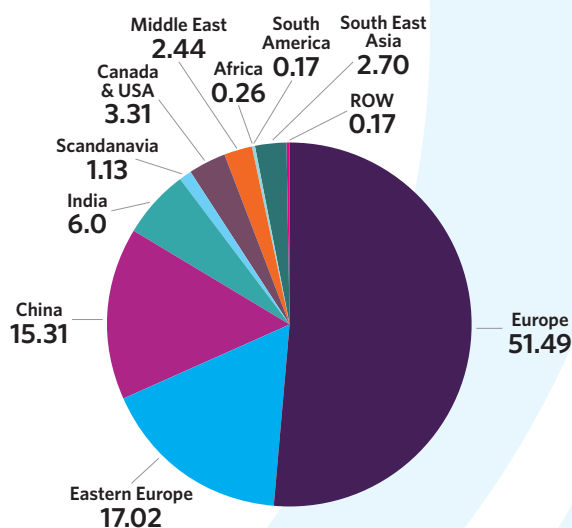

Celebrating its 30th edition and taking place at Koelnmesse in Cologne, Germany, the Chemspec Europe 2015 Exhibition is set to be the biggest Chemspec Europe on record. This follows on from the very successful event in 2014 held in Budapest, Hungary, the first time the show has been moved to an Eastern European country as a venue.

TRADE ATTENDANCE AT CHEMSPEC EUROPE 2014

Trade attendees from 58 countries were represented at the show in Budapest, Hungary.

Visitors by country

VISITORS AT CHEMSPEC EUROPE 2014

A visitor survey carried out shortly after Chemspec Europe 2014 in Budapest by Quartz Chemicals, organiser of the show has shown extremely high levels of satisfaction with the first ever Chemspec to take place in Eastern Europe. Among the responses received, the key points were:

- 80%** rated the event as 'good' or 'excellent'
- 94%** said they met their pre-show objectives while at the event
- 81%** of those who attended one or more of the allied conferences and other show floor content rated quality of these as 'good' or 'excellent'
- 85%** said that there were a sufficient number of opportunities to interact and network with fellow attendees and exhibitors
- 98%** said that they will attend Chemspec Europe 2015 in Cologne
- 98%** would recommend Chemspec Europe to a colleague

EXHIBITORS AT CHEMSPEC EUROPE 2014

Chemspec Europe 2014 welcomed, amongst many others, these key industry players:

Azelis
Dottikon Exclusive Synthesis
DSM
Evonik
Isochem

Johnson Matthey
Kemira
Lonza
Mitsubishi Chemicals
Saltigo

Sinopec
Solvay
Sumitomo Chemicals
Transpek
Weylchem

WHAT THE INDUSTRY SAYS ABOUT CHEMSPEC EUROPE 2014:

“ It was a busy show for us. We made many new contacts and met new people – suppliers and customers alike. We had many good talks and visitors came along with very interesting questions and topics. ”

Robert Bloodworth, Head of Procurement and Supply Chain, Saltigo

“ Chemspec does it exactly the way it should be done. It is user friendly from an exhibitor point of view. ”

Ron Epstein, Sales Director, Halocarbon

“ This is where it's at, you can't beat it. ”

John Drummond, Global Business Manager, Poyols, Gantrade Europe

MAKE THE CONNECTION

Make sure you secure your space now and get connected at Chemspec Europe 2015

The fine & speciality chemicals connection

CHEMSPEC EUROPE 2015 - CONNECTING BUYERS AND SUPPLIERS

There's something special about Chemspec Europe that exhibitors and visitors enjoy above all other shows. It's a much more manageable and pleasant experience for everyone. With a focused range of exhibits, easily identified feature areas, free-to-attend conferences and seminars in a relaxed atmosphere with quality 'face-time', there's no more direct or attractive place for taking orders in just two days.

THE 30TH EDITION OF CHEMSPEC EUROPE - UNRIVALLED IN EUROPE

Over the past 30 years, Chemspec Europe has undergone significant development and gained popularity within the industry due to its evolution from a simple trade show to a networking event. This transformation has been shaped by input from exhibitors and visitors to Chemspec Europe.

Having taken on board feedback from members across the whole industry, Chemspec Europe has developed key partnerships with the European Fine Chemicals Group (EFCG), Royal Society of Chemistry (RSC), Scientific Update and REACHReady to ensure the delivery of top-class content in free-to attend seminars and workshops.

The ensuing result has seen Chemspec Europe developing into a multi-faceted networking event dedicated to the fine, custom and speciality chemicals industry, which will open its doors in 2015 in Cologne, Germany, celebrating the 30th edition of the show.

If that's not a reason to celebrate, we're not sure what is!

CHEMSPEC EUROPE 2015 - A REASON TO CELEBRATE! A SHOW YOU CAN'T MISS!

Taking place at Koelnmesse in Cologne, Germany, the Chemspec Europe 2015 exhibition is set to be the biggest Chemspec Europe on record. If you are interested in meeting and networking with your existing and potential partners and business facilitators within this chemical sector then you can't afford to miss the 30th edition of this industry-leading exhibition.
